Latarka	68.2 cfm
Nazwa modelu	XC056 M704PRO.ARGB
Projektowana moc cieplna (TDP)	180 Watts
Ilość w opakowaniu	1
Jednostkowa waga netto	0.718 kg
Full Description Line	XC056 M704PRO.ARGB Air LGA1150/LGA1151/LGA1155/LGA1156/LGA1200/LGA1700/LGA2011/LGA2066/SA/SAM4/SAM5 Fan speed 500 - 1500 ± 10% RPM Air flow 68.2 cfm TDP 180 Watts Fan light Noise level, max 30.2 dB Dimensions 120 x 75 x 160 Weight 0.718 kg

Głębokość opakowania wysyłkowego	15.5 cm
Waga opakowania wysyłkowego	0.939 kg
Unit Box Width	0.115
Unit Box Height	0.18
ManufacturerCode	XC056
Prędkość wiatraka	500 - 1500 ± 10% RPM
Strona główna dostawcy	www.xilence.net/en/cpu-coolers/198
Rozdzielczość wyświetlacza LCD	30.2 dB
Wymiary	120 x 75 x 160
Objętość brutto	0.003208 cubm
Jednostkowa waga brutto	0.939 kg

Opis produktu

The new M704PRO.ARGB CPU cooler from the Performance A+ series brings light into the inside of the case. In order to highlight the CPU cooler the LED lights of the RGB lightning systems are seperately addressable and furthermore the complete the rest is designed in black. The top cover has a ARGB lighting. With its 3PIN 5V D/P ARGB M/B connector being linked to the equivalent connector on the mainboard, the fan's color scheme can be controlled. In case there is no such RGB M/B connector on the mainboard, the M704.ARGB offers the possibility to manage the color scheme via a mini controller (being powered via the S-ATA connector of the PSU). With this design and its specifications, the M704PRO.ARGB cooler is especially appropriate for gaming systems. Thanks to the multi-socket design, the cooler can be applied on all current AMD and Intel sockets. Included in the scope of delivery is - besides heatsink and 120mm PWM fan - mounting material for sockets LGA1150/1151/1155/1156/1200/1700, LGA2066/2011 and AM4 , illustrated assembly instructions as well as a tube of thermal paste.
