Chłodzenie Multi SOCKET/XC044 Xilence

Cena	180,46 zł
Dostępność	Dostępny
Czas wysyłki	24 godziny
Numer katalogowy	1222240
Kod EAN	4044953501197
Wysokość opakowania wysyłkowego	18 cm
Unit Box Length	0.135
Gniazdo elektryczne	LGA1150/LGA1155/LGA1156/ LGA1200/LGA1700/LGA2011/ LGA2066/SAM4/SAM5
Opis	The compact twin tower cooler M504D is the new multi socket solution of the Performance C series. Its 4 extremely efficient heatpipes conduct heat up to 200W to the innumerable cooling fins. Thus, it is predestined for powerful multi-core processors. Due
Latarka	111.2 cfm
Nazwa modelu	XC044
Projektowana moc cieplna (TDP)	180 Watts
Ilość w opakowaniu	1
Jednostkowa waga netto	0.685 kg
CnCode	84145925
Category Code	COC
Szerokość opakowania wysyłkowego	11.5 cm
Unit Box Width	0.115
Unit Box Height	0.18
ManufacturerCode	XC044
Prędkość wiatraka	600 - 2200 ± 10% RPM
Strona główna dostawcy	www.xilence.net/en/cpu-coolers/42
Rozdzielczość wyświetlacza LCD	21.8 dB
Wymiary	123 x 105 x 125mm

Objętność brutto	0.002795 cubm
Jednostkowa waga brutto	0.883 kg
Full Description Line	XC044 Air LGA1150/LGA1155/LGA1156/LGA1200/LGA1700/LGA2011/LGA2066/SAM4/SAM5 Fan speed 600 - 2200 ± 10% RPM Air flow 111.2 cfm TDP 180 Watts Noise level, max 21.8 dB Dimensions 123 x 105 x 125mm Weight 0.685 kg
Głębokość opakowania wysyłkowego	13.5 cm
Waga opakowania wysyłkowego	0.883 kg

Opis produktu

The compact twin tower cooler M504D is the new multi socket solution of the Performance C series. Its 4 extremely efficient heatpipes conduct heat up to 200W to the innumerable cooling fins. Thus, it is predestined for powerful multi-core processors. Due to the direct contact of the heatpipes, the heat transfer between CPU and cooler is highly efficient and very even.

With its multi socket, the cooler can be used for all current Intel and AMD sockets. Included in the delivery are - besides the double heat sink and the two 92mm PWM fans - mounting brackets for the sockets LGA1150/1155/1156/2011 and AMD AM4/FM2+/FM1/ FM2/AM2/AM2+/AM3, an illustrated manual, as well as a tube of thermal past

- Two heat sinks with fin design ensure the efficient cooling of the CPU and all surrounding components
- Two 92mm PWM fans, liquid bearing
- Four 6mm copper heatpipes for a maximum heat dissipation
- The slight protrusion of the fans on the top and bottom sides help to avoid hot spots
- The fans can be mounted on both sides of the heat sinks
- Appropriate for all current AMD & INTEL sockets
