Szerokość opakowania wysyłkowego	15.5 cm
Waga opakowania wysyłkowego	0.75 kg
Unit Box Width	0.155
Unit Box Height	0.055
ManufacturerCode	42710
Ilość w opakowaniu	1
Jednostkowa waga netto	0.4 kg
CnCode	85176200
Głębokość opakowania wysyłkowego	24.5 cm

Opis produktu

140m 4 Port USB 2.0 Cat.6 Extender.

The Lindy USB 2.0 Cat.6 Extender extends the distance between four USB peripheral devices and a PC over distances up to 140m using a single Cat.6 UTP or higher network cable. Cat.5e UTP/STP cable can be used in lengths up to a maximum of 120m. For best performance and compatibility, we recommend the use of solid core patched cables. This Extender is a two-part hardware solution comprising of a transmitter that connects directly to your computer and a receiver that connects to the USB device. With a robust aluminium housing and mounting points, it is the ideal solution for providing remote access to printers, scanners, web cams and external HDD & flash drive storage. The Extender is also perfect for digital signage applications, home network integration, industrial control, security, USB device sharing, and KVM extension. The included power supply for the receiver unit ensures secure and uninterrupted power to all devices. Tested with Logitech C310, Logitech C920e, V-Gear Talkcam LIVE 09-VTL480, I-Family IF-008B For the latest firmware fixing compatibility issues please contact

our support team. Please note: Through use of the Signal Repeater No. 42709 distances can be doubled up to 280m.
