Wymiary	452 x 218 x 33 mm

Opis produktu

GAMING GRADE PERFORMANCE

4x faster than standard keyboards

The G213 Prodigy gaming keyboard features Logitech Mech-Dome keys that are specially tuned to deliver a superior tactile response and performance profile similar to a mechanical keyboard. Mech-Dome keys are full height, deliver a full 4mm travel distance, 50g actuation force, and a quiet sound operation.

The G213 Prodigy gaming keyboard was designed for gaming, featuring ultra-quick, responsive feedback that is up to 4x faster than the 8ms report rate of standard keyboards and an anti-ghosting matrix that keeps you in control when you press multiple gaming keys simultaneously.

Choose from approximately 16.8 million colors

A modern keyboard with five individual lighting zones in a spectrum of approximately 16.8 million colors. Change colors to match your setup, specific games or just to showcase your favorite colors. Low light leak around the keycaps means more light comes through the lettering, making each key more brilliant and easier to find in the dark

DEDICATED MEDIA CONTROLS

Play, pause, skip, adjust

Control your background track without pausing the action. G213 features dedicated media controls that can be used to play, pause, and mute music and videos instantly. Adjust the volume, or skip to the next song with a touch of a button.

Designed for real life

The G213 Prodigy membrane and keyframe construction design is built for real life, delivering spill resistance tested to 60ml liquid rating. The result is a keyboard built to contend with the realities of everyday gaming.
