Bluetooth	Tak
USB 2.1	Tak
Rodzaj myszki	Optyczny

Windows 10	Tak
Rolka myszki	Tak
Objętość brutto	0.001417 cubm

Opis produktu

The R-Go HE Break Mouse is an ergonomic vertical mouse with integrated break software. This smart mouse helps you remember when it's time for a break.

The ergonomic R-Go HE Break mouse has a vertical position, so you will automatically move the mouse with your forearm instead of just your hand. This prevents strain injuries, such as CANS. The HE Break mouse has a round shape, so your hand and wrist are in a natural, relaxed position. The mouse fits comfortably in your hand and supports all fingers. Are you left- or right-handed? We have different versions and sizes available, so the mouse fits every hand.

The LED colour signals in the mouse indicate how healthy you are working and when it is time for a break. The mouse encourages you to take breaks on a frequent basis. These vital breaks help prevent physical complaints, stimulate blood circulation in the body and keep you fit during your working day. During mouse usage, the light changes colour, like a traffic light. Green means 'good job', orange that it is time for a break, red that you have been working too long. By using these subtle colour signals, you receive feedback on healthy (break) behaviour in a simple and positive way. This product works together with the R-Go Break Software that won the Benelux Office Products Award 2021.
