Opis produktu

G.SKILL Ripjaws S5
DDR5-6000 CL36-36-36-96 1.35V 32GB (2x16GB) Intel XMP

Ripjaws S5 is a performance DDR5 DRAM memory series made with hand-screened memory ICs that passed G.SKILL rigorous validation tests. Each Ripjaws S5 memory kit strikes an ideal balance between performance, compatibility, and stability and is available in matte black or matte white aluminum heatspreaders.

High-Speed Memory Performance with Intel Core Platform

G.SKILL is dedicated to develop high performance memory on each new Intel platform generation. Developed on the Intel Core platform, Ripjaws S5 taps into the speed potential of DDR5 to bring a whole new level of performance to worldwide overclockers and PC enthusiasts.

Experience the Evolution of Speed

Built upon decades of experience in developing high-performance memory, the Ripjaws S5 series DDR5 DRAM memory is engineered with hand-screened ICs and designed for high-speed performance.

Super Speed in Style

The next-gen Ripjaws S5 series adopts a minimalistic design inspired by classic racing stripes and grills, available in matte black or matte white to match a wide variety of PC build themes.

Compact Low-Profile Design

Featuring a low-profile height of just 33mm, the Ripjaws S5 memory is an ideal choice for compact PC builds or systems with large CPU coolers.

Engineered for Exceptional DDR5 Experience

Each and every Ripjaws S5 memory kit is tested under G.SKILL's rigorous validation process to ensure outstanding quality.

Red Dot Design Award 2022

The origins of the Red Dot Design Award date back to 1955. Its distinction, the Red Dot, is established internationally as one of the most sought-after quality marks for good design. With the help of the jury, the internationally organized competition "Red Dot Award: Product Design" appraises the best products of the year with one of the products being the Ripjaws S5, which exceeded the juror panel's strict criteria and expectation nine areas of product standards. XMP 3.0 Support

Just set and go. Programmed with the latest Intel XMP 3.0 profiles, the only thing between you and overclocked performance is a simple BIOS setting.

Limited Lifetime Warranty

All G.SKILL memory products come with a limited lifetime warranty and the G.SKILL technical team is always ready to provide consumers with complete technical support via online forum, telephone, and email.
