Opis produktu

Power Bank INTENSO HE25000

With up to 25000 mAh and 140 watts

The Intenso power banks HE25000 are your perfect companions on the go when it comes to powerful and reliable energy supply. With an impressive capacity of 25,000 mAh respectively and a robust lithium-polymer battery, both power banks ensure that your devices are always ready for use. The smart, digital status display keeps you informed about the charge level of the power bank and the current charging/discharging power in volts and watts, so you're never left in the dark.

Maximum capacity. Maximum energy

The Intenso HE25000 power banks enable extra-fast charging for compatible devices. With the versatile ports – including USB-A and two USB-C ports – you can optimally charge almost any device. The HE25000 even achieves an impressive output of up to 140 watts thanks to the USB-C2 port equipped with PD 3.1, supported by the supplied USB-C to USB-C cable with integrated E-marker chip. Charge your laptop in record time. With a variety of output options, the power banks adapt to your specific charging requirements.

Safety and comfort. Even when travelling

In addition to their impressive performance, the Intenso power banks also offer the highest level of safety. Thanks to over-voltage protection, discharge protection, overcharge protection, and short-circuit protection, your devices are always securely connected. The HE25000 power banks come with a practical bag that protects it from scratches and bumps, making it even easier to carry around. Whether travelling, at the office, or at home, with the Intenso power bank HE25000, you always have the necessary energy on hand to keep your digital companions ready to go.
