Opis produktu

Intel Core i5 processor 14500 (24M Cache, up to 5.00 GHz) FC-LGA16A Boxed

The Intel Core i5-14500 processor is a powerful and efficient choice for users seeking exceptional performance in everyday computing, gaming, and creative tasks. With a 24MB cache and clock speeds of up to 5.00 GHz, it provides excellent responsiveness, enabling fast application loading, smooth multitasking, and seamless gameplay.

Built with Intel’s advanced architecture, the Core i5-14500 delivers solid multi-core performance, ensuring compatibility with modern workloads. Designed for the FC-LGA16A socket, it supports PCIe 5.0 and DDR5 memory, offering faster data transfer speeds and future-proofing your system for next-generation hardware.

The processor's efficiency shines in its balance between performance and power consumption, making it an ideal choice for desktops requiring a mix of productivity and entertainment capabilities. Whether you're streaming, working on demanding applications, or enjoying your favorite games, the Core i5-14500 handles it all with ease.

Packaged in a boxed format for added convenience, the Intel Core i5-14500 is an excellent choice for those building or upgrading a system. With cutting-edge technology and reliable performance, this processor is a solid foundation for a responsive and capable PC setup.
