Router Bezprzewodowy Hap AX³/C53UIG+5HPAXD2HPAXD Mikrotik

Cena	529,85 zł
Dostępność	Dostępny
Czas wysyłki	24 godziny
Numer katalogowy	1383836
Kod EAN	4752224007940
Głębokość opakowania wysyłkowego	37.5 cm
Szybkość transmisji danych	1800 Mbps
Waga opakowania wysyłkowego	1.044 kg
Unit Box Width	0.055
Unit Box Height	0.195
DDR3 1600/1333/1066/800	C53UiG+5HPaxD2HPaxD
ManufacturerCode	C53UIG+5HPAXD2HPAXD
Rozmiar czujnika	DC 12-28 V / PoE 18-28 V
Nazwa modelu	hAP ax³
IEEE 802.1w	Tak
Ilość w opakowaniu	1
IEEE 802.11ac	Tak
Jednostkowa waga netto	0.3 kg
Typ urządzenia sieciowego	Router bezprzewodowy
CnCode	85176200
Typ anteny	Wielokierunkowy
Liczba anten	2
Szerokość opakowania wysyłkowego	5.5 cm
Wysokość opakowania wysyłkowego	19.5 cm
Unit Box Length	0.375
Kolor	Czarny
Dołączone akcesoria	power adapter, fastening set, HGO indoor antenna kit, Case base
Strona główna dostawcy	https://mikrotik.com/

IEEE 802.11n	Tak
Wymiary	251 x 130 x 39 mm
Mini-HDMI	Tak
Objętność brutto	0.004022 cubm
IEEE 802.11ax	Tak
Jednostkowa waga brutto	1.04 kg
DHCP	5
Category Code	WRO

Opis produktu

MIKROTIK hAP ax³

Ultimate power for your whole home

hAP ax³ is our most powerful AX device with the best wireless network coverage so far. It features a modern quad-core ARM CPU running at 1.8 GHz and enough memory (1GB RAM + 128 MB NAND) for most tasks. Complex firewall rules, IPsec hardware encryption, Wireguard, BGP, advanced routing, or multiple remote work VPN tunnels won't stop your family from comfortable browsing, streaming, gaming, and so on. There's enough processing power for everyone. And we've added a speedy USB 3 port for all your storage purposes or an additional LTE modem.

AX wireless – as strong as an ox

Depending on your overall setup, our AX product family offers up to 40% higher speed in the 5 GHz and up to 90% higher speed in the 2.4 GHz spectrum! Potent external antennas allow reaching gain up to 5.5 dBi, so you can forget about Wi-Fi Boosters and other tricks. Smooth and fast performance in full duplex mode again – that's just how hAP ax³ works. Home network speeds are getting serious. There are 4x Gigabit Ethernet ports available for fast wired connections.

Safer in many ways

hAP ax³ can ease your mind on multiple levels simultaneously. European-based production, our famous Nordic work ethic, and cooperation with the EU lawmakers ensure full compliance with all the necessary safety policies. Multiple power options (DC Jack & PoE-in) result in fewer worries about potential downtime. The latest RouterOS v7 updates and the addition of WPA3 advanced encryption support bring unprecedented software security.

To sum things up - hAP ax³ is among the fastest, safest, and most powerful choices in the home access point world. Wired or wireless. And it comes with the most advanced networking software on the market – RouterOS. Unlike many other vendors, we don't limit what you can do. There are no paywalls or confusing subscriptions. All our devices share the same limitless operating system. Imagination is the only limitation.

Some might ask – why do we even need higher wireless speeds? Well, countless use cases have been previously impossible or difficult to pull off. For example, working with large media files over the wireless network – without the need to download and upload everything. Do you really have the time to wait? Grab a hAP ax³ and save more time for the essential things in life.
