Opis produktu

The Neomounts by Newstar FL15-625WH1 is a tablet floor stand that can rotate 360° to easily switch between portrait and landscape orientation. Additionally, the tablet holder can be tilted +20°/-110° for comfortable viewing. Using the sliding rail at the back, the tablet can be perfectly aligned in the centre of the holder.

The floor stand features an anti-theft lock and a bolt-down base for extra security. Anti-skid pads protect the tablet from any scratches, while the height and width adjustable clamps ensure safe and solid placement of the device. The upper part has a

cutout for the tablet's camera. Cables can be neatly routed via the internal cable management system. The FL15-625WH1 is suitable for tablets with a thickness of 0-8,5 mm.
