Wrl Access Point Chateau LTE6/ D53G5HACD2HNDTC&FG621 Mikrotik

Cena	529,85 zł
Dostępność	Dostępny
Czas wysyłki	24 godziny
Numer katalogowy	1403799
Kod EAN	4752224008879
Waga opakowania wysyłkowego	18.75 kg
Unit Box Width	0.16
Unit Box Height	0.06
Dołączone akcesoria	24 V 1.2 A power adapter; UTP FlatCable (1.5m)
Strona główna dostawcy	mikrotik.com/product/chateau_lte6
IEEE 802.11n	Tak
USB 2.1	1
4G	Tak
Ilość w opakowaniu	20
IEEE 802.11ac	Tak
Jednostkowa waga netto	0.8 kg
10Base-T / 100Base-TX / 1000Base-T	5
CnCode	85176200
Tacka na kartę micro-SIM	1
Głębokość opakowania wysyłkowego	59 cm
Szerokość opakowania wysyłkowego	34 cm
Wysokość opakowania wysyłkowego	35 cm
Unit Box Length	0.33
DDR3 1600/1333/1066/800	D53G-5HACD2HND-TC&FG621-EA
ManufacturerCode	D53G-5HACD2HND-TC&FG621EA
Rozmiar czujnika	24 V 1.2 A

Nazwa modelu	Chateau LTE6
IEEE 802.1w	Tak
Wymiary	240 x 156 x 44 mm
Czas rozmowy	Tak
Objętność brutto	0.003511 cubm
Typ urządzenia sieciowego	Bezprzewodowy punkt dostępu
Jednostkowa waga brutto	0.938 kg
Szybkość transmisji danych	1200 Mbps
Category Code	WAP

Opis produktu

Chateau LTE6

Your best friend when it comes to affordable mobile networks. Amazing in the hands of seasoned system administrators. Or in a household with zero IT skills. Chateau can do it all. For mobile operators who want the best for their clients without breaking the bank.

Are you tired of those suspicious, low-quality default routers from your service providers? So many households are switching to mobile internet, but those default routers can really ruin the experience. Not only do they lack features, speed, and power, the designs can get weird with all the black boxes and spiky antennas. That's why we decided to take everything we've learned over the last 20 years of networking excellence and create a single device that will make most households happy: the MikroTik Chateau. It features a purposeful balance of extensive features, accessible pricing, and classy design that will fit right in.

Chateau is a high-speed, dual-band home access point that adapts to your needs. It features a powerful quad-core ARM CPU, a fast, reliable, and responsive CAT6 LTE modem for excellent mobile connectivity, and the most advanced networking software on the market – RouterOS. But don't worry – it can be as simple or as complex as you want. Chateau is designed to serve the most diverse user groups: IT professionals can push it to its limits, regular households can plug it in and forget it exists. With Chateau, you will always have options.

5x Gigabit Ethernet ports can be useful to connect all your home devices (media servers, PC towers, TV's). You can also keep the LTE as a backup and use the Gigabit Ethernet to connect to a wired ISP for even higher speeds!
